

User Reference Guide to Internet Trading

The New Standard in Internet Stock Trading

Overview

Thank you for choosing **UOB Kay Hian Internet Trading Platform**, which offers you a hassle-free online trading experience with a wide range of reliable features and tools which empower you to capitalize on market opportunities around the world.

System Configuration Check

You can run a system configuration check on our homepage (www.uobkayhian.com.sg) to check if your desktop or laptop specifications meet our minimum system requirements.

1. To do a **System Configuration Check**
 - a. Click on **System Config Check** on our homepage
 - b. And the **System Configuration Check** result will populate in a new window

What Was Tested	Recommendations	Your System Configuration
Operating System	<ul style="list-style-type: none">Windows 98/ME/NT/2000/XP/Vista/7Macintosh	Windows 7
Web Browser	<ul style="list-style-type: none">Internet Explorer 5.5 and aboveFirefox 1.0 and above (For Mac Users)	Internet Explorer 7
Cookies	Cookies are required to be enabled.	Enabled
Java	Java 1.3.1 and above. To update your Java, please visit http://www.java.com/getjava .	Java 1.6.0_23
JavaScript	JavaScript is required to be enabled.	Enabled

The latest browser versions supported:

- Internet Explorer 6.0 to 8.0
- Mozilla Firefox 2.0 to 3.6.10
- Apple Safari 4.0 to 5.0
- Google Chrome

User Reference Guide to Internet Trading

Login

2. To login to the **UOB Kay Hian Internet Trading Platform**
 - a. Click on the **Internet Trading** icon
 - b. Key in your User ID and password in the login page
 - c. You may also select the **Post-Login Start Page**

For security purposes, you will be prompted to change your password upon your first login.

The password is case sensitive. It must be alphanumeric and between 6 to 12 characters.

Surveying the Market

3. To **View Prices**
 - a. Select **Prices** under the **Trade** tab
 - b. Select **SGX, BURSA, or HKEX** from the **Market** dropdown on the top right hand corner to access your preferred market.
 - c. Click on the respective links above the prices to view **Top Volume, Top Gainer, Top Loser, Top % Gainer, Top % Loser**

Depending on the price mode setting, you will have access to streaming or snapshot price movements to multiple markets.

Price	1.920
Quantity	1,000

User Reference Guide to Internet Trading

Power Trader II

1. To access **Power Trader II**
 - a. Select **Power Trader II** under **Trade** tab
2. To **Place Order**
 - a. Double-Click on the Stock Name on the Price Section
 - b. Select/Enter all required fields, enter your **Password**
 - c. Confirm your order details and click on **OK**
 - d. Wait for **Order Result** before checking the **Order Book**

The Power Trader II feature allows you to access the three most frequently used functions within one screen:

1. Prices
2. Place Order
3. Order Book

The screenshot displays the UOBKayHian POWER TRADER II interface. At the top, it shows the user's name, last login time (26 May 2011 08:50:51 AM), and font size (Medium). Below this is a navigation bar with a watchlist and a grid of stock market data. The grid includes columns for Code, Stock Name, Rmks, Open, Last, Chng, %Chng, Vol, BuyVol, Buy, Sell, SellVol, High, Low, and Prev. A detailed order entry form is visible in the foreground, showing fields for Stock Name (Pertama), Account, Price (0.510), Quantity, Settlement Currency (SGD), and Payment method (Cash, CPF, SRS). Below the order form is an order book table with columns for Withdraw, Amend, Account, Mkt, Code, Stock Name, Action, Price, Original Qty, Qty, Amount, Status, Qty Done, Outstanding Qty, Time Submitted, and Trade Time. The interface also includes a status legend and a 'Logout' button.

Note

- The Portfolio is an indicative tool of your share holdings through trades done with UOB Kay Hian only, and/or through your own manual updates, and is not linked to your CDP/CPF/SRS account. Please contact CDP or your CPF Investment Agent Bank for your actual stock holdings. Clients are advised to practice caution when placing sell orders, as penalties will be imposed by SGX for short positions. [CDP Internet Access Login](#)
- Corporate actions such as stock splits and bonus issues will not be reflected in the Portfolio.
- The exchange rate quoted is indicative. Please refer to your contract note for the exact amount.
- Net Amt in Portfolio Details is based on the national currency of each exchange, e.g. SGD for SGX.
- Buy-in contracts resulting from short positions are indicated with "*" before the contract numbers. These buy-in contracts will not net off against their respective sell contracts.

Retail Market Monitor

www.uobkayhian.com.sg | 28 June 2011 | Last close: 3,048.3 (+0.6%)

Market News
FSSTI index down 0.6% as regional bourses tumble; US markets rally on Greek breakthrough
 The FSSTI index fell 0.6% to 3,048.3 in line with performances on other regional bourses. Index losers include property counters Capitaland which lost 1.4% to \$82.88 and City Developments which lost 1.3% to \$810.46. The broader market saw 141 gainers and 240 losers, where trading value amounted to \$50.99b.

US Markets
 US markets rallied after French banks proposed a plan to aid Greece by allowing for slower repayment of funds lent to the debt-ridden country. The DJIA gained 0.9% to 12,043 while the S&P 500 index gained 0.9% to 1,280. Gainers outpaced losers 2:1 on the NYSE, where 835m shares changed hands.

Stock Highlights
Venture Corporation - Orders pushed back to 2H11 (BUY/\$88.55/Target:\$810.66)
 Orders pushed back to 2H11. 2Q11 is expected to be sequentially flat compared with 1Q11 due to orders being pushed back to 2H11. Venture's 2Q11 performance was constrained by the sovereign debt crisis in Europe and slowdown of the job market in the US.

China Minzhong Food - On-site visits reaffirms our recommendation on company (BUY/\$81.52/Target:\$82.25)
 We maintain our BUY recommendation with target price of \$82.25, pegged at 8x 912 earnings, 25% discount to its Singapore-listed peers' average.

CWT Limited - HOLD (pending announcement)
 CWT is pending to make an announcement as it request

FSSTI retreated from 3,072 as investors took profit. On the hourly chart, FSSTI failed to close the break down gap. Trading volume suggest that some investors were watching from the sidelines. In comparison, the Hang Seng Index (HSI) attempted to reclaim 22,044 with an intraday high of 22,099.29 but closed at 22,041.77.

We think that the current trading range is back to the 3,020 to 3,054, which is close to the lower side of the symmetrical triangle. There could be some buying opportunity at the 3,020 level on the back of a series of higher lows, and 3,072 is likely to be tested again. However we iterate our neutral stance and advise

Market Monitor
 A daily review of the Singapore market, with stock picks and market/corporate news.
